Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 29 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Most places dry with some sunshine. Cloudier in the northeast.

Today:
Patchy mist, fog or low cloud clearing and then most places having a dry day with spells of sunshine, although cloudier in the northeast with a little drizzle on some coasts. Warm inland, cool in northeast.

Tonight:
Cloudier skies across eastern areas extending across central and some western parts overnight. Some light rain and drizzle for eastern parts of Scotland, northeast and southeast England.

Monday:
A good deal of cloud, although breaking in the south and west to allow some sunshine. Further light rain or drizzle in some eastern parts particularly in the morning.

Outlook for Tuesday to Thursday:
England and Wales mostly cloudy but dry; breezy around southern and eastern coasts and rather cool overall. Scotland and Northern Ireland sunnier, away from coasts, warmer too with light winds.
